Patent and Trademark Office

currency and for use in electronically trading, storing, sending, receiving, accepting and transmitting digital currency, and managing digital currency payment and exchange transactions; Computer software adapted for use in the operation of computers, namely, downloadable computer operating software; Downloadable computer software applications for coordinating short-term employment services, namely, software for advertising information of short-term employment opportunities and profiles of job seekers, namely, software for electronic message alerts featuring leads, optimal matches, and matching posts for services, scheduling, namely, connecting employment providers with individuals and groups needing employment, the arrangement and booking of employment, electronic messages, social networking services and profiles, and database management of a reputation ranking system, used in an open and decentralized computer system that employs crypto currency and for use in electronically trading, storing, sending, receiving, accepting and transmitting digital currency, and managing digital currency payment and exchange transactions; Computer software downloaded from the internet for coordinating short-term employment services, namely, software for advertising information of short-term employment opportunities and profiles of job seekers, namely, software for electronic message alerts featuring leads, optimal matches, and matching posts for services, scheduling, namely, connecting employment providers with individuals and groups needing employment, the arrangement and booking of employment, electronic messages, social networking services and profiles, and database management of a reputation ranking system, used in an open and decentralized computer system that employs crypto currency and for use in electronically trading, storing, sending, receiving, accepting and transmitting digital currency, and managing digital currency payment and exchange transactions; Downloadable computer software packages for coordinating short-term employment services, namely, software for advertising information of short-term employment opportunities and profiles of job seekers, namely, software for electronic message alerts featuring leads, optimal matches, and matching posts for services, scheduling, namely, connecting employment providers with individuals and groups needing employment, the arrangement and booking of employment, electronic messages, social networking services and profiles, and database management of a reputation ranking system, used in an open and decentralized computer system that employs crypto currency and for use in electronically trading, storing, sending, receiving, accepting and transmitting digital currency, and managing digital currency payment and exchange transactions; Computer software products, namely, downloadable computer software for coordinating short-term employment services, namely, software for advertising information of short-term employment opportunities and profiles of job seekers, namely, software for electronic message alerts featuring leads, optimal matches, and matching posts for services, scheduling, namely, connecting employment providers with individuals and groups needing employment, the arrangement and booking of employment, electronic messages, social networking services and profiles, and database management of a reputation ranking system, used in an open and decentralized computer system that employs crypto currency and for use in electronically trading, storing, sending, receiving, accepting and transmitting digital currency, and managing digital currency payment and exchange transactions; Downloadable computer software programs for coordinating short-term employment services, namely, software for advertising information of short-term employment opportunities and profiles of job seekers, namely, software for electronic message alerts featuring leads, optimal matches, and matching posts for services, scheduling, namely, connecting employment providers with individuals and groups needing employment, the arrangement and booking of employment, electronic messages, social networking services and profiles, and database management of a reputation ranking system, used in an open and decentralized computer system that employs crypto currency and for use in electronically trading, storing, sending, receiving, accepting and transmitting digital currency, and managing digital currency payment and exchange transactions; Downloadable computer programs and recorded computer software distributed online for coordinating short-term employment services, namely, software for advertising information of short-term employment opportunities and profiles of job seekers, namely, software for electronic message alerts featuring leads, optimal matches, and matching posts for services, scheduling, namely, connecting employment providers with individuals and groups needing employment, the arrangement and booking of employment, electronic messages, social networking services and profiles, and database management of a reputation ranking system, used in an open and decentralized computer system that employs crypto currency and for use in electronically trading, storing, sending, receiving, accepting and transmitting digital currency, and managing digital currency payment and exchange

transactions; Downloadable computer software platforms for coordinating short-term employment services, namely, software for advertising information of short-term employment opportunities and profiles of job seekers, namely, software for electronic message alerts featuring leads, optimal matches, and matching posts for services, scheduling, namely, connecting employment providers with individuals and groups needing employment, the arrangement and booking of employment, electronic messages, social networking services and profiles, and database management of a reputation ranking system, used in an open and decentralized computer system that employs crypto currency and for use in electronically trading, storing, sending, receiving, accepting and transmitting digital currency, and managing digital currency payment and exchange transactions, recorded on computer media or downloadable; Computer programs, namely, downloadable computer software for coordinating short-term employment services, namely, software for advertising information of short-term employment opportunities and profiles of job seekers, namely, software for electronic message alerts featuring leads, optimal matches, and matching posts for services, scheduling, namely, connecting employment providers with individuals and groups needing employment, the arrangement and booking of employment, electronic messages, social networking services and profiles, and database management of a reputation ranking system, used in an open and decentralized computer system that employs crypto currency and for use in electronically trading, storing, sending, receiving, accepting and transmitting digital currency, and managing digital currency payment and exchange transactions; Computer databases in the field of open and decentralized short-term labour hire marketplace that employs crypto currency recorded on computer media; Downloadable software applications for coordinating short-term employment services, namely, software for advertising information of short-term employment opportunities and profiles of job seekers, namely, software for electronic message alerts featuring leads, optimal matches, and matching posts for services, scheduling, namely, connecting employment providers with individuals and groups needing employment, the arrangement and booking of employment, electronic messages, social networking services and profiles, and database management of a reputation ranking system, used in an open and decentralized computer system that employs crypto currency and for use in electronically trading, storing, sending, receiving, accepting and transmitting digital currency, and managing digital currency payment and exchange transactions

CLASS 35: Advertising services provided over the internet; Advertising services provided via a data base; Electronic advertising services; Employment advertising services in connection with an online open and decentralized short-term labour hire marketplace that employs crypto currency; Online advertising on a computer network; Personnel recruitment advertising in connection with an online open and decentralized short-term labour hire marketplace that employs crypto currency; Provision of advertising information via the Internet; Provision of advertising space by electronic means and global information networks; Recruitment advertising in connection with an online open and decentralized short-term labour hire marketplace that employs crypto currency; Bartering services, namely, facilitating the trade exchange of goods and services for others; Compilation and provision of online business directories in the field of recruitment and job seeking; Personnel recruitment in connection with an online open and decentralized short-term labour hire marketplace that employs crypto currency; Resume compilation for personnel seeking employment in connection with an online open and decentralized short-term labour hire marketplace that employs crypto currency; Temporary personnel employment services in connection with an online open and decentralized short-term labour hire marketplace that employs crypto currency; Provision of business administration assistance; Provision of business information via computer networks in connection with an online open and decentralized short-term labour hire marketplace that employs crypto currency; Business administration services of businesses; Business administration services; Business administration assistance; Business information; Business management; Business management and administration services supporting utilisation of a global computer network; Business management assistance; Business management for freelance service providers; Computer assisted business information services; Dissemination of business information in the field of employment; Economic forecasting services; Information services relating to businesses; Providing business marketing information; Provision of business data analysis; Provision of information relating to business matters; Service to assist in establishing a network of business contacts, namely, business networking; Business employment recruitment consultancy in connection with an online open and

decentralized short-term labour hire marketplace that employs crypto currency; Employment recruitment in connection with an online open and decentralized short-term labour hire marketplace that employs crypto currency; Intermediary business services relating to the commercialisation of goods, namely, business management services and advertising services; Provision of an online open and decentralized online marketplace for buyers and sellers of goods and services that employs crypto currency; Promotional services

CLASS 42: Temporary online provision of non-downloadable web-based software applications for coordinating short-term employment services, namely, software for advertising information of short-term employment opportunities and profiles of job seekers, namely, software for electronic message alerts featuring leads, optimal matches, and matching posts for services, scheduling, namely, connecting employment providers with individuals and groups needing employment, the arrangement and booking of employment, electronic messages, social networking services and profiles, and database management of a reputation ranking system, used in an open and decentralized computer system that employs crypto currency and for use in electronically trading, storing, sending, receiving, accepting and transmitting digital currency, and managing digital currency payment and exchange transactions; Temporary online provision of non-downloadable web-based software applications, namely, a web-based software for forming online freelance labor marketplace where users employs cryptocurrency in transactions; Temporary online provision of non-downloadable web-based computer software applications for coordinating short-term employment services, namely, software for advertising information of short-term employment opportunities and profiles of job seekers, namely, software for electronic message alerts featuring leads, optimal matches, and matching posts for services, scheduling, namely, connecting employment providers with individuals and groups needing employment, the arrangement and booking of employment, electronic messages, social networking services and profiles, and database management of a reputation ranking system, used in an open and decentralized computer system that employs crypto currency and for use in electronically trading, storing, sending, receiving, accepting and transmitting digital currency, and managing digital currency payment and exchange transactions; Application service provider, namely, provision of online non-downloadable software, namely, hosting, managing, developing, analyzing, and maintaining applications, software and web sites of others in the fields of an open and decentralized short-term labour hire marketplace that employs crypto currency; Temporary online provision of non-downloadable web-based computer applications, namely, a web-based software for forming online freelance labor marketplace where users employs cryptocurrency in transactions; Software as a service (SaaS) services featuring software for coordinating short-term employment services, namely, software for advertising information of short-term employment opportunities and profiles of job seekers, namely, software for electronic message alerts featuring leads, optimal matches, and matching posts for services, scheduling, namely, connecting employment providers with individuals and groups needing employment, the arrangement and booking of employment, electronic messages, social networking services and profiles, and database management of a reputation ranking system, used in an open and decentralized computer system that employs crypto currency and for use in electronically trading, storing, sending, receiving, accepting and transmitting digital currency, and managing digital currency payment and exchange transactions; Software as a service (SaaS) services featuring software services for forming online freelance labor marketplace where users employs cryptocurrency in transactions; Updating of computer software; Design of computer databases in connection with employment opportunity, job seekers, and cryptocurrency; Design of information technology systems of others; Hosting computer web sites

PRIORITY CLAIMED UNDER SEC. 44(D) ON AUSTRALIA APPLICATION NO. 1960088, FILED 10-16-2018, REG. NO. 1960088, DATED 05-23-2019, EXPIRES 10-16-2028

SER. NO. 88-387,267, FILED 04-16-2019

**REQUIREMENTS TO MAINTAIN YOUR FEDERAL TRADEMARK REGISTRATION**

**WARNING: YOUR REGISTRATION WILL BE CANCELLED IF YOU DO NOT FILE THE DOCUMENTS BELOW DURING THE SPECIFIED TIME PERIODS.**

**Requirements in the First Ten Years\***

**What and When to File:**

- **First Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) between the 5th and 6th years after the registration date. See 15 U.S.C. §§1058, 1141k. If the declaration is accepted, the registration will continue in force for the remainder of the ten-year period, calculated from the registration date, unless cancelled by an order of the Commissioner for Trademarks or a federal court.
- **Second Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between the 9th and 10th years after the registration date.\* See 15 U.S.C. §1059.

**Requirements in Successive Ten-Year Periods\***

**What and When to File:**

- You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between every 9th and 10th-year period, calculated from the registration date.\*

**Grace Period Filings\***

The above documents will be accepted as timely if filed within six months after the deadlines listed above with the payment of an additional fee.

**\*ATTENTION MADRID PROTOCOL REGISTRANTS:** The holder of an international registration with an extension of protection to the United States under the Madrid Protocol must timely file the Declarations of Use (or Excusable Nonuse) referenced above directly with the United States Patent and Trademark Office (USPTO). The time periods for filing are based on the U.S. registration date (not the international registration date). The deadlines and grace periods for the Declarations of Use (or Excusable Nonuse) are identical to those for nationally issued registrations. See 15 U.S.C. §§1058, 1141k. However, owners of international registrations do not file renewal applications at the USPTO. Instead, the holder must file a renewal of the underlying international registration at the International Bureau of the World Intellectual Property Organization, under Article 7 of the Madrid Protocol, before the expiration of each ten-year term of protection, calculated from the date of the international registration. See 15 U.S.C. §1141j. For more information and renewal forms for the international registration, see <http://www.wipo.int/madrid/en/>.

**NOTE: Fees and requirements for maintaining registrations are subject to change. Please check the USPTO website for further information. With the exception of renewal applications for registered extensions of protection, you can file the registration maintenance documents referenced above online at <http://www.uspto.gov>.**

**NOTE: A courtesy e-mail reminder of USPTO maintenance filing deadlines will be sent to trademark owners/holders who authorize e-mail communication and maintain a current e-mail address with the USPTO. To ensure that e-mail is authorized and your address is current, please use the Trademark Electronic Application System (TEAS) Correspondence Address and Change of Owner Address Forms available at <http://www.uspto.gov>.**
